Mayor McMillen Sets October 7 to 13 as Fire Prevention Week

Inspection of Business and Industrial Places To Be Made

Mayor James McMillen has proclaimed next week as fire prevention week, adding his proclamation to that of Gov. Adlai E. Stevenson.

Fire Chief Edgar Simonsen said that in observance of the week he has arranged to supply short films for the showing in Antioch, theatres and information on fire prevention will be issued at the schools where fire drills will be staged.

Inspection of business houses will be made by fireman and recommendations made where hazards exist.

Said Mayor McMillen: "While Antioch has a good fire fighting department, well equipped, there isn't a man who would not rather prevent fire than fight one."

"A little bit of carelessness may see the life savings of an individual go up in smoke, and at a time like this when building materials are hard to get, replacement may be difficult."

"Therefore, I urge all citizens to inspect their properties for such conditions as are conducive to fires, and make an effort to correct them."

Antioch Youth Shot in Hunting Accident Sunday

The first squirrel hunting accident of the season for this area occurred Sunday when Ronald Marotta, 16 of R.F.D. 3, Antioch, was shot in the hip by a bullet from a .22 calibre rifle. The injury was not serious.

The mishap occurred when Marotta and two hunting companions were crossing a fence at the gravel pit on Rte. 173 four miles west of Antioch.

The gun of Kenneth Peterson, 16, of Petite Lake, Lake Villa, fell from the fence where it was leaning and fired striking Marotta.

The injured boy was taken in the car of the third hunter, Tom Ellwood, 16, of Linden Lane, Antioch, to a physician's office for treatment.

Deputies Roger Kane and William Wood said the boys were hunting squirrel. Peterson told them the safety on his gun was on but the weapon was old and apparently failed to hold when the gun fell.

Village Trustees Hold Brief Meeting; Plan To Attend Convention

In one of the briefest sessions in years, the village board Tuesday evening paid bills, planned the representation at the Illinois Municipal League convention at Peoria, and adjourned.

Delegates to the convention which will be held Sunday, Monday, and Tuesday of next week will be Trustees Murrill Cunningham, George F. Garland, Arthur Rosenfeldt, Village Attorney E. C. Jacobs and Police Chief Walter I. Scott.

President James McMillen announced that the rat killing campaign was hindered by rain which damaged the bait. The firm under contract to get rid of the rodents has nearly three months yet to do its work.

Discussion took place over the possible use of the village property east of the Soo Line tracks as an airplane landing field. More and more Antioch people are becoming interested in flying and a landing place is needed near town.

The trustees would rather see the place used for industry and homes but at present no money is in sight for the installation of sewer and water for the area.

A heavy frost last Friday night and Saturday morning came while fifty percent of the corn was still unharmed in this area, besides the mature corn only that on high land escaped frost damage. The only use for the frost bitten corn now is ensilage. The frost came early this year and the corn matured slowly because of the cold, wet weather.

Palatine Pirates Play Antioch Varsity, Sophs Here Tomorrow Evening

Varsity Loses, Sophs Win at Wauconda; Frosh Lose to Palatine

An improved Sequoit football team will take on the Palatine Pirates under the lights at the Antioch High school gridiron at 7:30 p.m. tomorrow evening. Bachman and Poulsen will captain the Antioch team.

The Sophomores at 6:15 p.m. will attempt to make the Pirate sophomores walk the gang plank in revenge for the 19 to 13 defeat their more experienced freshmen handed the Antioch freshmen here Tuesday. The sophs as yet are undefeated.

The varsity failed to get any of the breaks of the game at Wauconda last Saturday afternoon and went down in defeat 20 to 0. It was the first victory for Wauconda in three years.

One of the bad breaks for the Sequoits came in the first quarter when Lewis Place, with the aid of some splendid blocking ran 80 yards for a touchdown, only to have it nullified because the backfield was in motion. Later a touchdown passed went but a few feet beyond the end zone.

Sutko of Wauconda scored on an 81-yard run from kickoff, and returned 79 yards following a punt. Nolan scored on a 52-yard pass from Sutko, and kicked two extra points.

The leading ground gainer for Antioch was Harry Larsen, fullback who traveled 196 of Antioch's 276 yards. Bob Lubkeman, who is believed to be one of the best punters in the region, had an average of 43 yards.

In the preliminary, the undefeated Antioch sophomores, who already had the scalps of Grant and Bensenville on their belts, triumphed over the Bulldog sophomores 18 to 0. Harold Wilson, assisted by Terry Wells and Phil Burdett in the backfield scored all three touchdowns.

Playing on the sophomore team are John Wells and Fred Miller, halfbacks; Harold Wilson, fullback; Bill Terry, quarterback; Phil Vos, and Phil Burdett, ends; Tom McGreal and Dick Hedburg, tackles; Joe Pechulius and James Holem, and Henry Kopell and Fritz Bauman alternating at center. On the defense are Art Frogette and Gene Balmes, linemen and Ed Haley in the backfield. Francis Perrigoue is the coach.

Summerlike Weather Draws Fishermen Back to Lakes

The summerlike weather of the last few days has given many persons the fishing fever and the lakes are dotted with them. Much more numerous are the coots, (ducks) which are plentiful on the lakes seemingly awaiting the opening of the hunting season on Oct. 28. There are actually thousands of them at Grass and Pistakee lakes.

The reports on fishing are: Craple's caught on minnows at Squaw creek, Fox Lake, Pistakee Bay and Lake Marie. Bluegills caught on flies and worms at Columbia bay at North end Grass lake. Bass caught on frogs and surface bait on the west shores of Grass and Channel lakes, and Stanton bay, Fox lake. Pickerel caught on large chubs on the east and west shores of Grass lake.

WHERE IS THE BEEF?

Where is the beef going? That's a fair and important question, in the light of the experience of the country's leading beef producing plants during recent months. For week after week it has been evident that the normal beef business is in a state of severe dislocation. As an example, in a late week 95 of the principal packing houses were able to buy in compliance with OPS ceiling regulations only 63 per cent of the number of cattle they bought during the corresponding week of 1950. A week earlier, they were able to buy 68 per cent of the number of cattle bought in the corresponding week of 1950. During the first nine weeks of OPS controls, some 250,000,000 pounds less beef moved into consumption through the usual distribution channels than during the same period a year before.

Reports from various localities tell what this situation is doing at the consumer end of the pipeline. Many stores have been running out of certain cuts of beef before all customer's wants were met.

So—where is the beef going?

In some cases, producers have held livestock off the market, because they believe that OPS policies are unfair and unworkable. But this probably accounts for but a small part of the decline in the number of cattle reaching established packers. It is obvious that more and more of the beef is finding its way into other normal channels. OPS, in short, has created the same situation that existed under OPA.

One inevitable result of arbitrary economic controls is the stimulation of crooks and profiteers—coupled with sharp drops in the supplies that go through the lawful avenues of distribution. Meat is a salient example.

CALLING THE TUNE

Government regulations or no government regulations, the consumer has much to do with calling the

tune when it comes to prices and business turnover and other such matters.

In late months, according to the Commerce Department, retailers have reduced their inventories—in other words, they've cut the size of stocks on hand. And the reason for this is what the Commerce Department calls a "softening of consumer demand." That is, people didn't buy as much as they had previously—and so the retailer trimmed his sails to fit the prevailing wind. They were nothing else he could do.

Some people still think that the retailer is a tough customer who's prime ambition in life is to outsmart and exploit them. The retailer couldn't be that even if he wanted to—not if he means to stay in business for any length of time. Just as a burnt child dreads the fire, so does a customer hurry by the store where he got a real or fancied trimming. The biggest problem any retailer has—all the way from the one-man specialty shop to the chain with thousands of outlets—is trying to figure out what the consumer wants, what he will or can pay, what his desires will be tomorrow or next week or next year.

The bulk of buyers are primarily interested in price—and that is especially true in this inflationary era. For reasons of self-preservation if no other, retailers keep prices as low as possible. You can offer the consumer goods, but you can't force him to buy. In the long run, the consumer is the boss.

"Politics is the art of looking for trouble, finding it whether it exists or not, diagnosing it wrongly, and applying the wrong remedy." — Ernest Benn.

THE LOW DOWN FROM HICKORY GROVE

I will now tell you all what I think of "Theory versus horse sense." Six years ago it was the idea in high places of our Govt. that the way to tame a wild, uncouth Bear was to give him his way—like many modern mammas now allow their surly off-shoot to lay down on the floor, kick and cavort until he gets his way. Mama has been reading too much ploney theory—her off-shoots show it—her off-shoot's manners will embarrass mama in due course.

Anybody with a lick of sense, as we sometimes emphasize things here at Hickory, knows that the last 20 years of Freud theory has been the reason for the many ill-mannered drivers we now try to dodge on our streets and roads.

But foolin' a young mama and foolin' a grizzled politician should be different. What any grown-up white man, black man or bronze man could figure as something good to expect from our yokel-like treatment of the uncouth Soviet Bear, is beyond savvy. There has been a complete lack of Govt. horse sense ever since Gen. Patton was not permitted to take over Berlin 6 years ago. We are thereby out of pocket heap dinero, you and me—50 billion maybe, and that is not hay, unless of course you are one of the tax favored crew there in old Politicstown who eat plentiful and regular and high.

Yours with the low down,
JO SERRA

How does it feel to drive a Buick?

If you think perhaps we're hinting that it would be a good idea for you to try out a Buick—mister, you've never been so right.

It does a lot of things for you and to you that will be something new in your driving experience.

Take the way it feels beneath your hands on the wheel—eager and willing and anxious to please.

It spurts when you want to spurt—rolls with effortless momentum when you want to cruise.

When you take a curve, it snugs down to the road with sure-footed confidence.

After you make a turn, the front wheels instinctively seek a straight course. This car seems to guide itself.

When you come to a bumpy stretch, each separate wheel on its own coil spring steps you smoothly along on a level keel.

Then there's power that surges into action at a nudge of your toe—sends your speedometer needle soaring up to any speed the law allows, in a matter of seconds.

And there is also thrift—the gas-saving thrift that comes from a high-compression valve-in-head Fireball Engine found in no other car.

To top all this, there is Dynaflo Drive*—that feeds power in a steady, falterless flow—lets you ride relaxed

in busy traffic or on a day-long cross-country drive.

We're willing to stand on the statement that no other car rides, performs or drives like a Buick.

Swanson Invites Area To Shrine Spectacle In Waukegan, Oct. 13.

Fred B. Swanson, Antioch's theatre owner, today issued an invitation to the entire area to witness the Shrine parade and evening program at Waukegan Saturday, Oct. 13.

Nothing like this spectacle has ever taken place in Lake county, Swanson said.

The event has been arranged by the Lake County Shrine club with Swanson acting as general manager. It will be sponsored by Medinah Temple of Chicago and 11 other Shrine clubs in the Chicago area.

A parade will be given at 2:30 p.m. starting at Edison Court, passing down Washington st. to Genesee st. and north to the Waukegan post-office. Each club will have a float, and 1,500 persons will participate. It will take 1½ hours for the parade to pass a given point. Medinah temple will bring all of its colorful bands and marching groups and mounted patrol.

The visitors will be fed at the Masonic temple, Elk's club, in four churches and the American Legion home.

Even more spectacular will be the program at night at Weiss field. Bands, drill teams, chanters and special entertainers will stage a program on platform and field between the hours of 7 p.m. and 9:45 p.m.

"This event will long be remembered," said Swanson. "This day is the Lake County Shrine club's contribution to the enjoyment of the public. The whole event will be free of charge and the Shrines are bearing all expenses.

Bill Chase of Channel Lake returned home after a fishing trip in Canada.
